
1997 Editorial Index *for Health Facilities Management*

ACCREDITATION

JCAHO creates new accreditation track 1/97: 6

JCAHO publishes guide to long-term care 2/97: 6

Organizations join forces for rehab facilities 3/97: 10

JCAHO wins community health center contract 4/97: 6

JCAHO surveyors to get patient outcomes data 5/97: 6

Got the SOC blues? Here's a refresher course 5/97: 52

Hot off the presses! New PPO manual from JCAHO 6/97: 5

Long-term, subacute care facilities get JCAHO guide 9/97: 6

Show and tell 9/97: 32

Petri dish: JCAHO joins up with lab evaluators 9/97: 80

Buddy system: JCAHO, COLA expand agreement 10/97: 96

AIR QUALITY/SMOKING

Air scare: So you have a few minor IAQ problems? Look again. They might be adding up 6/97: 22

When the dust flies: clearing the air during construction 6/97: 24

Having a bad air day? Here's why 6/97: 26

ASHRAE's new air quality standard: What's it really all about 6/97: 28

Carpet diem: Seize the chance to beautify with carpet. All you need is a good cleaning plan 6/97: 32

Good housekeeping = Healthy IAQ 6/97: 33

How to reduce IAQ problems 6/97: 33

Scientists mull mysteries of mold, seek IAQ info 9/97: 5

AMBULATORY/SPECIALTY CARE

JCAHO publishes guide to long-term care 2/97: 6

Designing health in the new millennium: how architects are adapting to the health network model 2/97: 18
Contemporary concepts for caring for the elderly (in a continuum of care) 2/97: 20
What are the facilities of the future? 2/97: 21
New residence design helps Alzheimer's patients find their way 5/97: 20
Rug rap: TLC is the ticket to long life for carpets in assisted-living facilities 6/97: 34
Mod squad turns quick fix into permanent solution 9/97: 70
T-square or cookie cutter: is the single design approach right for multiple outpatient facilities? 10/97: 52

ASHES update 9/97: 60
ASHES update 10/97: 72
ASHES update 11/97: 42
ASHES update 12/97: 34

AMERICAN SOCIETY OF HEATING, REFRIGERATION AND AIR-CONDITIONING ENGINEERS (ASHRAE)

Second draft of ASHRAE energy standard upcoming 4/97: 60
ASHRAE's new air quality standard: What's it really all about 6/97: 28
ASHRAE gives nod to plan for developing MDS 10/97: 96

AMERICANS WITH DISABILITIES ACT (ADA)

ASHE president's letter: ADA: doing the right thing 5/97: 18
ADA compliance down—guidelines needed 6/97: 80
Finding your way through the ADA: Make your facility accessible to everyone 10/97: 38

ASBESTOS

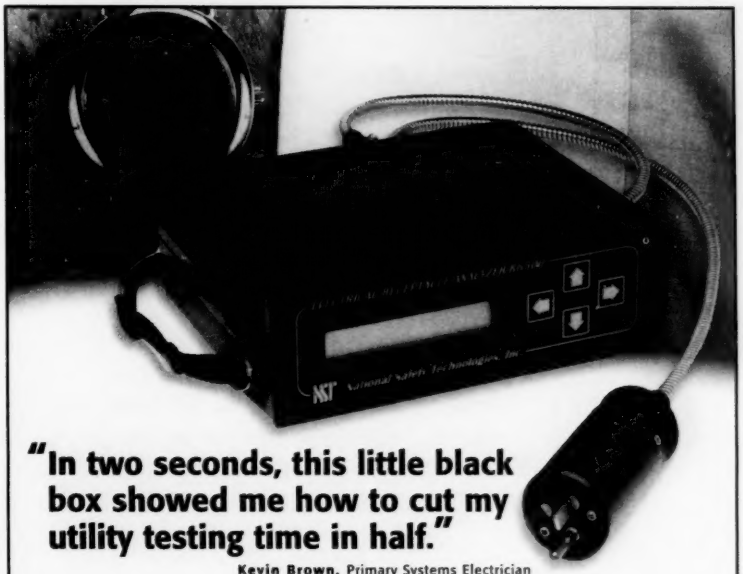
OSHA has new software for complying with asbestos rules 3/97: 84
OSHA releases Windows-based program 5/97: 88

BIOMEDICAL EQUIPMENT/ TECHNOLOGY

Survey reveals rise in savvy equipment buyers 5/97: 10
Ill. bill proposes regulated reuse of surgical devices 9/97: 80
Heart beat: FDA approving coronary devices—fast 10/97: 9
Taint necessarily so: FDA scans shielding devices 10/97: 96
Upkeep uptick for medical equipment 11/97: 60

BUILDING CONTROLS

ASHRAE forges plans to update BACnet protocol 5/97: 4
The big chill: Chiller integration puts the freeze on energy costs 7/97: 34



"In two seconds, this little black box showed me how to cut my utility testing time in half."

Kevin Brown, Primary Systems Electrician
Medical Center of Delaware

"NST's Electrical Receptacle Analyzer allows us to do safety testing in record time. It helps us cut down on our testing time by fifty percent."

When it comes to testing your medical utility operations, every second counts. Whether it's your own time, staff time, or that of outside professionals you hire to get the job done.

NST's R6500 Electrical Receptacle Analyzer is lightweight, reliable, and provides accurate test results in just 2 seconds. And our G2500 Medical Gas Outlet Analyzer performs multiple tests in under 15 seconds. When you're done, just download the results to generate reports for documentation purposes.

You're committed to complying with safety regulations for testing your electrical receptacles and related wiring as well as medical gas outlets. Now, let NST show you how fast and easy compliance can be.

Call us today for more information on these time-proven devices.

Top 10 trends—and how to make them work for you 10/97: 70

You'll Never Walk Alone
Users simply wear a MyCall Communicator on their clothing and can instantly inform security of their precise location and identification by pressing MyCall's built-in duress alarm.
A New Sense Of
Introducing MyCall™, a brand new kind of job security from Instantel. MyCall brings unprecedented safety to the workplace with breakthrough technology so advanced...it's almost invisible. Users simply wear a MyCall Communicator to instantly inform security of who they are and where they are, by pressing MyCall's alarm button. By combining their award winning technology with the experience of providing superior personal security products to the medical world, Instantel has succeeded in making MyCall personal duress systems more reliable and affordable than ever before! Use MyCall to protect staff in any facility where workplace violence is a potential problem, or to reduce the worry of anyone working in sensitive or unsecured environments. As long as they are in your facility, MyCall wearers can summon help. The MyCall system can be custom-configured on-site for your specific needs and installs quickly and economically. Instantel's unique Perceptis technology even allows you to integrate MyCall into your existing security system for the ultimate in simplicity and safety. MyCall grows with you, from a small application of a few Communicators in a department to hundreds of them across a multi-floor facility. The options are yours. The technology is from Instantel.
